About Us

Child Inc Head Start is a national high quality research based early childhood development program designed to promote school readiness for poverty threshold families with children ages 0-5 including pregnant women and expectant families. The program is focused on closing the achievement gap between more affluent peers and lower income children. The agency provides services to over 2000 families annually in Center Based Classrooms, Home-Visitation and Collaborative Classrooms within area school districts.

Kids Fest Goals

We are committed to nurturing excellence in all aspects of education, embracing a cradle to college model. Kids Fest brings children of all ages, their parents and educators to celebrate and promote quality programs, parent education and collaboration.

Child Inc, the St. John Neighborhood Association, Reagan Vertical Team of schools and Austin Voices for Education & Youth invite 400+ community members out for a mile-long walk and celebration of our schools.

The event is an opportunity to provide valuable community resources related to early development, health and wellness, nutrition, fitness, education, financial empowerment, as well as raising public awareness and increasing outreach to emerging populations.
